Quarterly Journal of Science
Kharazmi University

Contents

R. Ebrahimi;
Polymerization of Acryric Acid co Acrylamide Hydrogel by Ultrasound

H. Amani;
Optimization of Biosurfactant Production for Cleaning of Floating Crude Oil

M. Rahimnejad, Gh. Najafpour, Z. Najafgholi;
Sediment as New Source of Clean Energy for Bioelectricity Production

R. Saberi, A. Takhtardeshiri;
Comparision Between CER.M-PAN and H.C.F.C-PAN in Separation Cesium Radioactive in Water Flow

N. Samadani Langrodi, V. Jodaeian;
Formic Acid removal from aqueous samples by adsorption on rice bran

F. Talebi Khalilmahaleh, R. Marandi;
Investigating the Variation of Activated Carbon Adsorbents’ Particle Size and Its Effect on Equilibrium Time and Nickel Ions’ Removal Efficiency from Aqueous Solutions

M. Ghiasi, B. Noohi, M. Zahedi;
Theoretical Study of the Catalytic and Inhibition Mechanism of the β-lactam Antibiotics by Metallo-β-lactamases in the Different Solvents and Different Temperatures Using Quantum Mechanical Calculations
